

Miami County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors

6/28/2017

Using the most recent IMPLAN data available (2015) adjusted for 2017, 21 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Miami County economy.¹

These 21 sectors have a total direct output of approximately **\$132.2 million** and support **1,410.6 jobs** in Miami County. Running the model for all 21 sectors simultaneously produces the following results:

Agriculture, Food, and Food Processing Sector Contribution to Overall Miami County Economy						
Impact Type ²	Employment	% Employment	Total Value Added ³	Total Value Added % of Gross Regional Product ⁴	Output ⁵	Output % of Gross Regional Product
Direct Effect	1,410.6	13.22%	\$37,769,059	5.11%	\$132,238,362	17.89%
Indirect Effect	102.9	0.96%	\$7,001,676	0.95%	\$13,057,628	1.77%
Induced Effect	68.3	0.64%	\$5,927,197	0.80%	\$9,913,333	1.34%
Total Effect	1,581.8	14.83%	\$50,697,932	6.86%	\$155,209,323	21.00%

As shown in the above table, agriculture, food, and food processing sectors support **1,581.8 jobs**, or **14.83%** of the entire workforce in the county. These sectors provide a total economic contribution of approximately **\$155.2 million**, roughly **21.00% of the economy**.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 21 agriculture, food, and food processing sectors is approximately **\$50.7 million**, or **6.86% of the GRP**. This indicates that personal income, business income, and taxes generated by these sectors account for **6.86% of the total economy**.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting:

http://www.implan.com/index.php?option=com_content&view=article&id=660%3A660&catid=253%3A3KB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

In the top ten agriculture, food, and food processing sectors by employment, the beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming sector is the top employer with **664.5 employees**. This table also shows the amount of jobs that are created by the agriculture industry in Miami County.

Top Ten Agriculture, Food, and Food Processing Sectors by Employment		
Sector	Total Employment	Total Output
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	664.5	\$31,907,369
All other crop farming	297.4	\$9,329,192
Landscape and horticultural services	91.7	\$4,711,552
Grain farming	77.1	\$11,815,829
Veterinary services	46.8	\$4,204,479
Animal production, except cattle and poultry and eggs	43.4	\$2,526,516
Oilseed farming	32.9	\$14,959,230
Dairy cattle and milk production	30.7	\$7,715,358
Support activities for agriculture and forestry	28.7	\$741,182
All other food manufacturing	21.6	\$7,032,349

The beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming sector directly contributes approximately **\$31.9 million** to the Miami County economy. The table below also shows the amount of revenue that is generated in other industries by having a strong agriculture industry.

Top Ten Agriculture, Food, and Food Processing Sectors by Output		
Sector	Total Employment	Total Output
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	664.5	\$31,907,369
Animal, except poultry, slaughtering	21.5	\$15,225,594
Oilseed farming	32.9	\$14,959,230
Grain farming	77.1	\$11,815,829
Farm machinery and equipment manufacturing	16.2	\$9,515,316
All other crop farming	297.4	\$9,329,192
Dairy cattle and milk production	30.7	\$7,715,358
All other food manufacturing	21.6	\$7,032,349
Landscape and horticultural services	91.7	\$4,711,552
Veterinary services	46.8	\$4,204,479

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture, food, and food processing sector and the output they contributed to the Miami County economy.

All Agriculture, Food, and Food Processing Sectors		
Sector	Total Employment	Total Output
Oilseed farming	32.9	\$14,959,229.47
Grain farming	77.1	\$11,815,828.32
Vegetable and melon farming	1.9	\$275,347.38
Fruit farming	7.7	\$506,617.96
Tree nut farming	0.2	\$35,519.78
Greenhouse, nursery, and floriculture production	21.6	\$2,403,078.08
All other crop farming	297.4	\$9,329,192.16
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	664.5	\$31,907,367.71
Dairy cattle and milk production	30.7	\$7,715,357.78
Poultry and egg production	5.9	\$2,903,286.70
Animal production, except cattle and poultry and eggs	43.4	\$2,526,515.72
Canned fruits and vegetables manufacturing	6.5	\$2,980,794.67
Animal, except poultry, slaughtering	21.5	\$15,225,593.57
Bread and bakery product, except frozen, manufacturing	13.9	\$1,718,113.78
Frozen cakes and other pastries manufacturing	0.9	\$134,928.55
All other food manufacturing	21.6	\$7,032,349.11
Wineries	4.1	\$1,051,771.76
Farm machinery and equipment manufacturing	16.2	\$9,515,316.01
Food product machinery manufacturing	4.0	\$1,286,119.46
Veterinary services	46.8	\$4,204,478.74
Landscape and horticultural services	91.7	\$4,711,551.67

All 105 counties in Kansas have an IMPLAN model and an agriculture, food, and food processing contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Miami County, the retail sector was omitted.
